Notification

14-55/AHVS/2012-13

The following Scheme approved by the Government is published for the general information of the public:—

PASHUPALAN SCHEME— Breeding and Rearing of Cows/Bufaloes/Calves Scheme

Introduction.— The Livestock Economy penetrates sections of rural society both vertically and laterally, supposedly more equitably than land holdings.

Considerably there have been dramatic favourable changes in livestock population and composition over the past five decades, but overall impact on poor has not been much.

Goa has its own Breeding Policy and accordingly animals are to be bred using Jersey semen. However, the local cattle owners find it very difficult to stall-feed their unproductive indigenous cattle. This leads to the animals roaming in the streets looking for grazing patches or feeding from the dustbins as scavenger cows. Deaths in these cows are reported due to consumption of plastic bags over a period of time, which is total loss to the farmer and the State. Unlike stray dogs, the stray cattle have owners, who due to their own financial circumstances cannot stall feed the unproductive animals, as it is a further burden to their pocket. Presently, there is no Government scheme or any agency to take care of the unproductive and low milk yielding local animals. The promotion of dairy husbandry through crossbreeding of low productive local cattle is therefore to be given priority as most of the villagers own a few cattle. This programme will ensure techno-economic viability and prosperity to the small farmers. Local Cattle breeding, was initiated by the Government of Goa in early 70's, but was not popular, due to the high feeding cost during stall feeding.

Considering this scenario, further research and technology transfer are needed in areas

of genetic improvement, reproductive efficiency, and nutrition and health care, all these areas are equally important to improve the overall quantity and quality of milk production. Genetic improvement in this direction can further promote economic and eco-friendly dairy husbandry, which the small farmers are looking forward for their sustainable livelihood. There should be no limitation to the number of animals covered by individual farmer, or organisation.

Objectives.— The main objectives of the scheme are as follows:

✓ To encourage the cross breeding of cows and buffaloes.

✓ To encourage rearing of cross-bred calves & improved buffalo calves from birth to 27 months.

✓ To encourage and uplift the S.C and S.T. community.

✓ To improve & sustain the productivity of cattle & buffalo through use of Artificial Insemination practices.

✓ To assist the farmer financially in stall feeding the local animals & rearing of the cross-bred calves & improved buffalo calves purchased alongwith the Kamdhenu animals.

✓ To indirectly reduce the menace of stray cattle.

✓ To help the farmers to rear the crossbred calves from 16 months to 27 months in continuation of the existing calf rearing schemes.

Eligibility.— ⊗ All farmers availing the Artificial Insemination Facility for cattle and buffalo and registered with the local Government Veterinary Services.

⊗ N.G.Os and other organizations availing the A.I. to cows & buffaloes.

⊗ All farmers irrespective of their financial status.

⊗ All farmers having cross-bred calves up to 15 months under Special Calf Rearing Scheme covered.

⊗ All the farmers having cross-bred calves and improved buffalo calves either born out of A.I. or calves bought along with animals under Kamdhenu Scheme or Western Ghat Scheme or Modern Dairy Scheme.

Expectation on implementation of the Scheme.— * This programme will eliminate stray cattle and conserve community or individual paddy field, crops, plantations and forests from being destroyed by grazing of stray cattle.

* Door to door, service will help them to avail timely services and to develop confidence in adoption of the technology.

* Promotion of healthy crossbred cattle.

* Unproductive local cattle population will be reduced.

* Non-dependence on neighbouring States by beneficiaries for their requirement of cross bred animals under various Government Schemes.

* Increase in the number of cross-bred cows thereby giving a fillip to the yield of milk in Goa.

Procedure.— The scheme consists of two parts. The 1st part consists of three phases. The first phase deals with the Artificial Insemination of the local cows & buffaloes. The second phase is the confirmation of pregnancy and feeding incentive.

The third phase deals with rearing of the calf from birth to 27 months. It will also include the cross-bred calves born out of A.I. to local cows, buffaloes and improved buffalo calves bought along with animals under Kamdhenu Scheme or Western Ghat Scheme or Modern Dairy Scheme or other existing Scheme.

The 2nd part of the scheme deals with the rearing of local cross-bred calves/heifers (from 16 month to 27 month) which have been covered up to 15 months under Special Calf Rearing Scheme.

Part One

In addition to the documents required under the scheme, the application should also be supported with the detailed estimate of the construction or of the repairs of the existing house in respect of which financial assistance is sought.

Once the sanction order is issued to the Dhangar family on the basis of such sanction order, the supplementary amount as assessed by the sanctioning authority under the scheme IAY or RAY as the case may be, the Directorate of Social Welfare will release amount to such sanctioning authority, which in turn will release the entire amount of IAY/ RAY including the component of the Social Welfare Department.

8. *Monitoring of the scheme.*— Monitoring of the scheme for issues relating to the eligibility, operationalization, or issues on account of new situation, not envisaged at

the time of formulation of the scheme, would be resolved by the Monitoring Committee, whose decision will be final.

expenses on paying guest accommodation, food, travel, etc.

2. *Objective.*— To provide additional financial assistance to the Dhangar students as the maintenance allowance given under the Post Matric Scholarship is inadequate to meet the expenses on food and travel.
